# Tom's Tumbler Accessories

## Upgrade to Stainless Steel

## Wet Trim with CO<sup>2</sup>

## Tumbler MeshNets

### 1 CO<sup>2</sup> Adaptor Kit

Wet trim with Tom's Tumbler CO<sup>2</sup> Adaptor Kit by flash freezing buds and can also be used for kief extraction.

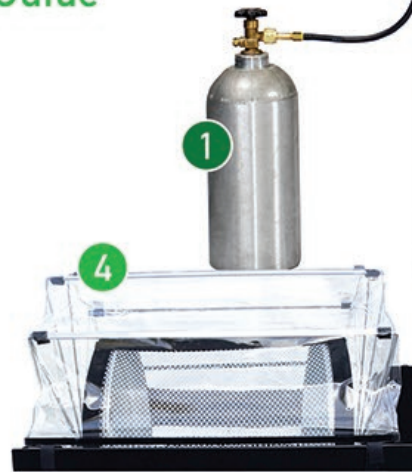

### 2 MeshNets

These custom nets come in 1/2" mesh for trimming and 1/4" mesh for separating popcorn size nuggets from the trim. Order by trimmer size and mesh size. Kief Nets (151 or 110 micron) for extraction are available for all Tumblers.

### 3 Stainless Steel Funnel Flow Guide

The TTT2600 can be upgraded to a stainless steel funnel flow for longer lasting and easier to clean functionality.

### 4 Dust Covers

Replacement Plastic Dust Covers are available for all models.

### 5 Tumbler Covers

Water-resistant Tumbler Covers are available for all size models. These are ideal for protecting your Tumbler between harvests.

### 6 Tom's Trimming Shears

Tom's Premium Trimming Shears are the perfect accessory for the final touch to your buds.

### 7 Tom's Resin Remover

Tom's Resin Remover is a food-grade, all organic, plant-based resin remover that is effective for cleaning your tumbler, funnel flow bag and dust cover. It cleans better than alcohol!
